Director of Coding
Products

**Joy Woodke, COE,
OCS, OCSR,**
Academy director of
coding and
reimbursement

Physicians, administrators, technicians, and scribes all play a crucial role in patient care and your practice's financial health. Join the most trusted coding experts in ophthalmology for four hours of professional coding education essential to your success. We'll map out the latest critical updates, review key competencies, test your knowledge through live polling and steer you towards successful solutions for appropriately maximizing reimbursements.

Developed by the American Academy of Ophthalmology, Codequest is the best way to protect your practice from claim denials and audit recoupments.

Who should attend?

Ophthalmologists who are responsible for their practice's revenue, plus technicians, scribes, billers and coders, compliance officers, practice managers/administrators.

Topics for the Four-Hour Session

- 2024 Coding Updates, financial impact and crucial payer policy changes
- Myth-busters 2.0: Debunk this year's top coding myths and confirm with trusted guidance.
- Compliance Matters: Recognize the hot topics related to audits, compliance and investigations of ophthalmic practices and steps to take to avoid.
- Name That Modifier: Review challenging case studies to develop proficiency and confidence in applying modifiers.

- Code this OP Report: Recognize the ten steps for surgical coding and apply them to real-life OP reports to level-up your skills.
- Coding Competency Challenge: Master frequently asked coding questions by submitting your answer through live polling
- E/M: Decipher the definitions hidden within the medical decision-making table.

Have a specific coding conundrum?

Email questions to codequest@aao.org before the course and get answers to your personal coding challenges.

The American Academy of Ophthalmology is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CME Designation Statement
